

We absolutly DO NOT want the do-not call law altered in anyway in New Jersey. The law is working just fine by preventing the annoying tele-marketing calls. My time is as valuable as yours and I do not need tele-marketers constantly taking my time in an effort to sell me anything and everything under the sun. I do not buy ANYTHING over the phone. There is absolutly no reason for a tele-marketer to call me. Please leave the New Jersey do not call law as it currently reads. Thank You
